Your Guide to Easy & Affordable Custom Plushies

www.bestplush.com

© 2022 Best Plush Inc.

email: info@bestplush.com

Call: 609-518-6699

Dear Distributors,

Welcome to Best Plush Inc., a custom toy designer and maker since 1988!

We specialize in supplying customized stuffed animals, uniquely designed mascots, and many other quality plushies of every kind in varying shapes and sizes for nearly any promotion or campaign. From design & manufacturing to import & delivery of custom-made exclusive plushies, we do all the heavy lifting to help your clients stand out from their competitors and get noticed!

This collection, as part of our Customizable Promotional Plush Catalog, displays over 200 exclusive puppy plush ideas and demonstrates how you can customize them the way you like for your project. In addition to our designs, you can also use external designs as a starting point without concern for copyright, since the design will be modified and updated during the free customization.

Take advantage of our free design service that no competitor offers:

- The design or redesign is free.
- The modifications are free and unlimited.
- The pre-production sample is free.
- Your actual pre-production cost is \$0.

Rest assured that all plushies made in our factory network are of a high quality and fully comply with US CPSIA, ASTM F963 and CA Prop 65, as well as with social responsibility guidelines. With over three decades of supply chain experience, we can bring your custom order to any US destination in a timely and efficient manner.

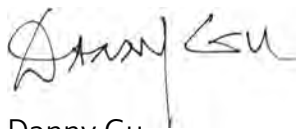

Under a custom project, your only job is to advise us of what you need or are looking for. We'll take care of everything until the made-to-order plushies are delivered to your satisfaction.

No cost is hidden. When you work with Best Plush Inc., you can count on your profit as exactly predicted.

In addition to factory-direct custom orders, we also stock a huge inventory of stuffed animals that are ready to ship from NJ with or without a custom t-shirt, scrub, etc.

Thanks for your time! Please contact us whenever you need an easy, reliable source of affordable customized plushies!

Sincerely,

Danny Gu

Custom Orders

A custom order is a factory-direct purchase of made-to-order plushie products, delivered to your destination with an agreed-upon timeline.

Displayed in this catalog are over 200 of the hottest designs we've developed with our distributors for recent custom projects. Feel free to choose any of them as reference ideas for your own project. You can supply your own design as the starting point, too. Be sure to check out our "Featured Designs" on Pages 6-11 for useful guides and advice.

Our minimum quantity to order is 800 plush pieces at 12" and taller, or 1,000 plush pieces that are between 5" to 11" tall.

Our regular production time is 23 days for orders under 10,000 pieces. Transit time from China to LA is about 5 days via air, or 23 days via ocean.

If you need an order in your hands sooner, ask us for rush service.

Why Trust Best Plush Inc.?

Custom-made items mean that your client will stand out from the competition and get noticed – and so will you! Custom-made plushies are proven to increase client conversion and retention, which means big bucks for your client... and for you.

Since a custom project is a multifaceted operation, however, it can easily become troublesome if you do not work with an experienced, reliable and specialized supplier who can handle the entire supply chain operation.

Here are the top five reasons to choose Best Plush Inc.:

1. We are a custom toy supplier since 1988 with hundreds of custom projects under our belt.
2. We offer \$0 pre-production cost: free design, free modifications and free pre-production sample.
3. We take care of everything on the supply chain from design to manufacturing to shipping & import, until the order is delivered.
4. We guarantee the lowest price to help you reach a lucrative margin. See FAQs 5.08 for details.
5. All orders get tested for safety compliance by an independent CPSC-accredited lab.

Three Levels of Customization

Level 1 Create from Scratch

No such plush item exists yet. We'll hand-craft a prototype according to a reference image or rendering from you, and improve the design until you are satisfied, like this Pineapple Stay puppy mascot. New creation is about 85% of our custom projects.

Level 2 Replicate with Updates

Improve an existing plush, like this Toyota mascot.

Level 3 Duplicate without Discrepancy

Recreate or duplicate a design, such as "Blue" from Blue's Clues.

How to Custom Order?

Custom Plush May Be Sophisticated, But Custom Ordering Shouldn't Be!

3 Easy Steps | \$0 Pre-production Cost | We Do All Heavy Lifting | Fast Delivery | No Hidden Cost

1

Prepare a Non-Obligatory Quote

YOU: Describe the item you are looking for, with a reference image, a rendering or a physical sample.

WE: Understand your project and prepare a free, non-obligatory quote detailing:

- The item specifications and options
- All related price and costs
- The timeline of the production, import and delivery

YOUR COST: \$0

2

Develop the FREE Prototype

YOU: Order the prototype after the quote is accepted. A prototype will serve as the pre-production sample upon approval.

WE: Draw the design, handcraft a sample and email you images and/or video of the sample.

YOU: Review the sample and request free modifications. If you would like to receive the physical sample, shipping charge applies.

WE: Modify the prototype until you are fully satisfied.

YOUR COST: \$0

3

Order and Deliver

YOU: Order the plush product when you are ready.

WE:

1. Choose one factory from our network that best fits to make your plush.
2. Hire an independent CPSC-accredited lab to test your plush for safety compliance.
3. Import the order to the USA and deliver it to your destination as soon as 28 days.

YOUR COST: As quoted. No hidden cost is allowed.

"Canine Coach" for BlueChoice, Featuring T-Shirt Designs

The Project

Blue Cross/Blue Shield wanted to create a memorable promotional item as a way to show appreciation for their employees who, as they put it, "worked like a dog!" Our solution was to create a custom dog mascot in the style of a friendly "coach" to cheer them through their hard work day.

The Idea and Design

A safe, huggable, friendly character was created using the company's logo colors of blue and white, with embroidered eyes and a sublimation printed whistle for added safety with children.

- Soft plush fur in the company's logo colors
- Eyes were embroidered rather than plastic so they could not be a choking hazard
- Logo and message printed on the front and back of the shirt

- CPSIA compliant: safe use for children

Logo on Clothing

A Unique Approach to Branding

With the Canine Coach design, we added the logo and branding to both the front and the back of the shirt. This is a versatile, safe and effective way for the client to have a memorable and permanent reminder of their business no matter how the dog is carried or displayed by its owner.

As an optional design, we were also able to show a prototype with the logo printed on the hat as well and a different logo on the t-shirt front.

- Logo on hat

Clothing designs can be very versatile and can include your logo or message on any and all parts of the clothing, including shoes, hats, bandanas, and more! With sublimation printing and embroidery, it is easy to place your logo and other objects such as a landmark building, product, or tool, like the whistle on this dog.

Pitbull Plush for HeartGard and NexGard, Featuring Collar Designs

The Project

Boehringer Ingelheim, the nation's #1 supplier for heartworm and flea/tick preventatives for dogs, reached out to us to create a plush dog mascot to promote their NexGard and HeartGard products. These plush giveaways were used at the Orlando XM Show 2022 and also distributed in veterinarian and animal hospital offices nationwide.

The client and distributor like this idea, and would like it as the starting point for their new mascots.

The Design

A pitbull design was chosen. We created several prototypes and kept improving until the client was fully satisfied. The end result was a highly sought-after, adorable creation that promoted their heartworm prevention products. A single dog design for both brands, with unique, custom-designed leather collars and oval fabric medallions for each brand, made for a memorable plushie.

- Removable leather collars in different colors that match the company's current branding guide
- Short pile, durable fabric chosen for this dog design

- Embroidered facial details and lovable, expressive brown eyes were added for a friendlier looking pitbull than what was seen on earlier prototypes

Brand Recognition

- Included on the collar is a removable medallion that shows the logo and message - pink for HeartGard and blue for NexGard

- CPSIA compliant: safe use for children

Give a Collar to Your Mascot!

The collar is unique for all dogs - a logical, affordable decoration and a great logo destination. The collar can be made of simple fabric or a fancy leather quality. For more ideas, please visit Dogs with Collars, and enjoy free design service.

Introduction: Featured Custom Designs

Axon's K9 Mascot, Featuring Removable Clothing Designs

The Project

Axon Enterprise wanted a unique mascot design to go along with its company message of providing tactical support, training, and solutions to law enforcement and civilians. They chose a "K9" dog and our team created a removable "bulletproof vest" with easy to pull velcro straps and a prominent logo shown on the front.

The Idea and Design

The dog, a Doberman Shepherd, has a combination of adorable yet strong and "tough" features, along with a vest that can be removed and a realistic K9 dog "at attention" pose.

- Soft plush fur design in realistic K9 dog colors

- "Tough", yet also adorable pose and expression

- Easy-to-remove simulated tactical vest with velcro straps

- Prominently displayed logo printed on vest

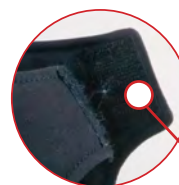

- CPSIA compliant: safe use for children

Removable Clothing

An Added Feature for More Fun

One of the truly unique and totally fun features of this dog design was the removable vest, which was designed to look and feel just like a real tactical bulletproof vest used in law enforcement applications. Our designers created a combination of padding to resemble a tactical vest along with easy to use velcro straps that allow the vest to be safely and easily removed without shape distortion, tearing, or difficulty.

- Velcro straps

Introduction: Featured Custom Designs

NexGard Sports Campaigns, Featuring 2-in-1 Convertible Designs

The Project

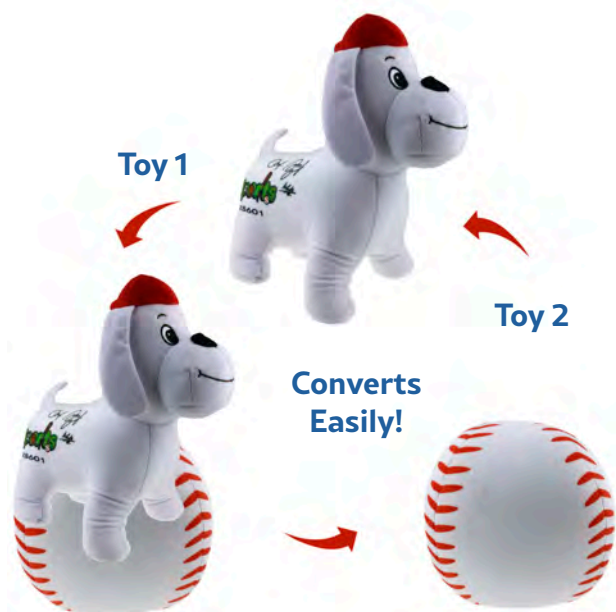

NexGard reached out to us through our distributor for their series of campaigns with various sports organizations. They were looking for a plush design that could display two logos nicely (NexGard and the team's logo). They loved our stock design at first sight, which was the [Autographic Pup Plush](#) (shown right) since the dog and baseball are built together and convertible; a meaningful, fun toy for their corporation offering huge spaces for both logos.

Product Designs

To meet the various interests and budgets of sports organizations, several pairs of convertible toys were developed at no cost to the distributor or the client.

As shown below, among Toy 1, the pitbull plush is more dimensional than the applique or sublimation printed cushions. Among Toy 2, the soccer ball is sewn together from 32 polygons, more complicated and expensive than the puck.

Since each pair is filled with micro beads that move around upon shaking, however, Toy 1 and Toy 2 always convert to each other easily, making them fun and functional swags.

[Click Here for a Demo Video](#)

A convertible canine and ball is a perfect giveaway toy for veterinarian offices, pharmacies, pet stores, etc...

- **Two Huge Logo Spaces**
Two huge areas to showcase your logos.
- **Two Toys for the Price of One!**
Get more bang for your buck with one price for two toys!
- **The Toys Puppies Love... and So Do the Owners!**
Our toys are designed for all audiences, two-legged and four-legged alike.
- **Maximize Brand Exposure, Indoors & Outdoors**
Our plushies can give your brand a lot of exposure, whether inside the home or outside.
- **Custom-Made Fun!** Stand out and be noticed when the 2-in-1 convertible toy is played with or displayed.

See more 2-In-1 Convertible Ideas on the next page.

Customizable Promo Puppies

Introduction: Featured Custom Designs

NexGard Sports Campaigns, Featuring 2-in-1 Convertible Designs (continued)

NexGard liked the puppy to be able to convert to sports balls, since they are a pet pharma having a sports campaign. But most clients like to make their product, tool,

or other iconic object convertible to a neck pillow. As the convertible pillow is used at home, in the office, and on the go, the fun and functional item gives your branding exposure everywhere, everyday.

Our pillows start as a toy in any shape you like, and simply unzip, tuck and re-zip to transform that cute toy into a soft neck pillow!

To see how it works, please watch the one-minute video above.

Features

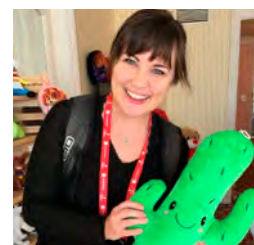

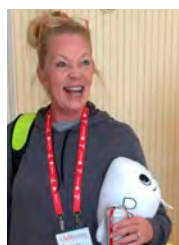

- Two shapes in one convertible plush
- One price for two items
- Free design
- Custom manufactured
- Quantity: As few as 800 pieces
- Production: as soon as 15 days
- Price: as low as \$3.99

You can imagine any shape and customize any design into a convertible concept! A neck pillow can be made convertible to any items, such as sports balls, tools and equipment, foods, drinks, fruits, animals...

Why Are Our Distributors So Happy When Demonstrating the Convertible Toys?

You will get it when your clients stand out from competitors and get noticed with the fun & functional swag!
Join in the fun today with Best Plush Inc.!

Blue's Clues Character, Featuring Pop-Out Magnetic Message

The Project

The client acquired licensing rights to create a plushie of the beloved dog character, "Blue," from the Nickelodeon children's show, Blue's Clues. They needed the plushie to stand out from what other competitors had in stores.

The Idea and Design

We were able to bring the dog known as "Blue" to life with a cuddly pose, soft and huggable form, and a unique hangtag that has a pop-out magnetic toy announcing the new episode live on stage.

- Soft plush fur design in the colors of the character from the show
- Embroidered eyes and features for added safety

- Paw includes the "clue" paw print that the licensed character is well known for
- A pop-out magnet toy announcing the new episode live on stage, removable from the hangtag

CPSIA compliant: This dog was designed to be safe for adults and children

Magnetic Hangtags

A Unique Feature For ANY Plushie!

What's better than one promotional item? How about TWO in one! We can create a removable, magnetic pop-out hangtag that can serve as a "bonus" item & add additional perceived value to your plushie. The hangtag magnet can be removed and placed on a refrigerator or other object to remind people of your product or company. We can design it in any shape you need, include your text, logo or design, and set it up in different thicknesses or colors as well. These hangtags can be custom-made in as few as 100 pieces at affordable price. Your client can attach them to any existing items or use them as independent promo pieces. You can add a magnetic pop-out tag to any existing plushie!

Licensed Character Creation

We're not limited to the designs of ours or yours. If you have a licensed character, or have purchased the rights to one, we can duplicate that character exactly for you to your specifications, with an optional message like the magnetic hang-tag without any violation to the licensed design. Provide a sample image or a physical sample, and our design team will work hard to ensure your plushie retains the look and feel of the original character.

Reach out to us for FREE advice! No idea is too complicated, too big, or too small.

Clothing, particularly a t-shirt, is the most popular decoration as well as the logo destination for all promo plushies. It makes a branding match easy and effective thanks to the unlimited choices of the styles, colors and a large space for the logo and other messages.

Displayed to the right is the Blue Puppy Coach, designed for Blue Cross and Blue Shield. It is an employee appreciation gift for their health plan sellers who "work like a dog" and wear the blue shirts. The necessary logos, messages and whistle are sublimation printed on the front and over the back. Could you imagine what the BCBS mascot would look like without the jersey or hat?

Dog Urn Keepsakes

If you work with pet pharma, vets, pet stores, and suppliers, recommend this creative solution to help their clients mourn the loss of beloved pet dogs & puppies.

Unlike a traditional urn or memorial box for ashes or cremains, a Dog Urn Keepsake from Best Plush Inc. is soft, huggable, shatter-proof, and accommodating for both children and adults. What clients are sure to love about our memorial plush is the everyday reminder that the visual representation in stuffed animal form provides. The plush cremation urn is not just a pet loss memorial for adults, it can also be used as a coping mechanism for young children who are struggling after the passing of a cuddly, lovable dog. The plushie can be carried around safely or placed next to a child in the bed or chair/sofa. It can be the child's daily companion as the dog used to be.

We can create a branded keepsake for your clients the way you like, either using your design or ours as the starting point. As always, design is free, and satisfaction is guaranteed.

The cretain storage is simple. Over the back of the plushie, there is a discreet velcro opening to a large drawstring pouch. To store the cretain case or bag or other pet mementos, insert it inside, tie the string, and secure the velcro.

FAQs (Frequently Asked Questions)

1 The Basics

1.01 What is a custom order?

It is a factory-direct purchase of made to-order products that will be delivered to the destination designated by you. Under a custom order, you can get the plushie exactly as imagined and without limitations; compared to a stock order where you can buy the plushies warehoused in NJ, with or without optional t-shirts and scrubs.

1.02 How do I compare custom orders to stock orders?

The below table explains the differences between custom and stock orders from Best Plush Inc.:

Comparison	Custom Order	Stock Order
Minimum Quantity	800 Pieces	60 Pieces
Shipped From	Shanghai	NJ
Production	23 days	1 to 15 days
Transit	5 to 40 days	1 to 5 days
Decoration	T-shirt and much more	T-shirts and scrubs
Modifications to the Toy	Allowed	Not allowed
Size (Tall)	5" to 48"	6" and 8"
Item Unit Price	Less	More

1.03 Where are your products made?

Our products are made in Yangzhou City, one of the world's largest plush manufacturing centers, 140 miles north of Shanghai, China.

1.04 What is your MOQ (Minimum of Quantity)?

800 pieces for items measured 12" or taller; or 1,000 pieces for items measured between 5" to 11" tall.

1.05 What is the turnaround?

For quantities up to 10,000 pieces, the regular production time is 23 days; add 5 days to the production time for each incremental 20,000 pieces. The regular transit is 5 days via air or 23 days to Los Angeles, CA via ocean; the detailed timeline will be given in the free quote and PO confirmation.

1.06 What is the 'ballpark' price of a typical plush item?

Subject to the design, craftsmanship and season, a teddy bear at 5" tall could be around \$1.89 each, FOB Shanghai, 10,000 pieces ordered.

1.07 What is the starting point of a custom order?

The starting point is the item information such as a reference image, a simple rendering, or a physical sample. A physical sample is helpful, but NOT required.

1.08 What is my job in a custom order?

Your only job is to place the order. We will do the rest from item development, manufacturing, shipping, and import, through the delivery to the destination.

1.09 How much is my pre-production cost?

\$0.

Customizable Promo Puppies

FAQs (Frequently Asked Questions)

2 Quotation

2.01 What is the custom ordering procedure?

Set up a non-obligatory quote, build the pre-production sample, and place the order.

2.02 Is the quotation free of charge?

Yes.

2.03 Is the quotation obligatory?

No. You can walk away at any time.

2.04 What's included in a free quote?

Included in the quote are the item description, price, delivery cost, production time, and the delivery promise.

2.05 What information shall I provide to receive a free quote?

The item information (either a reference image, a rendering or a sample), quantity, in-hands date, and ship-to zip code.

2.06 How soon can I receive the free quote?

Usually within hours.

3 Prototype (Custom Sample) Development

3.01 What is your free design service?

The spec sheet is free. The prototype is free. Modifications are free. The pre-production sample is free. So your pre-production cost is \$0.

3.02 What is a prototype?

It is a customized physical spec sample. Upon approval, the prototype becomes the pre-production sample.

3.03 Is the prototype free?

Yes! A shipping charge applies if you'd like to receive the physical prototype.

3.04 How much is a prototype is worth on the market?

\$500 to \$1,000. No companies are found to offer free design. Few companies provide unlimited modifications.

3.05 How can I order a free prototype?

You can order a free prototype once you accept the quote. As a show of good faith, please place a deposit of about \$199 that will be fully refunded when you place the product order.

3.06 How is a prototype created?

A prototype is hand-crafted by artisans in our sample labs. It goes through eight typical steps: 1) draw the pattern, 2) choose the fabrics, 3) cut the fabrics, 4) embroider/print, 5) sew the fabrics, 6) stuff, 7) review and reform, and 8) QC and safety review.

3.07 Can I request to modify the prototype?

Yes.

3.08 How much does a prototype modification cost?

It is free.

3.09 How many modifications can I ask for?

It is unlimited until you are fully satisfied.

3.10 What are the three levels of prototypes?

Duplicate an existing item, update an existing item, or create a new item from scratch.

Customizable Promo Puppies

FAQs (Frequently Asked Questions)

3 Prototype (Custom Sample) Development (continued)

3.11 What is a duplicate prototype?

You would like us to duplicate a plush item without discrepancy before we custom manufacture it for you. The sameness will be 100% if a physical sample is given, or about 95% if no sample (images only) is provided.

3.12 What is an update prototype?

You would like us to modify an existing item before we custom manufacture it for you. You can provide us the images or the physical sample, together with your modification list.

3.13 What is a creation prototype?

You would like us to create an item that does not exist. If you can provide a rendering, that is great. As in most cases, however, you can just send us a reference image from this catalog or other sources, along with your modification list.

3.14 What is the timeline of prototype processing?

1-4 days to duplicate an item; 3-5 days to create from scratch; 2-4 days to create a new version. Rush service is available.

3.15 How soon can a prototype be finalized?

For a duplication or replication of an existing item, most clients are satisfied with the initial version of the prototype; for a creation from scratch, the 2nd or 3rd version should be fine. We do offer unlimited modifications.

3.16 How can I review the prototype?

At your discretion, you can review the prototype via email of the images and video we provide, you can receive the physical sample, or you can do both.

4 Order and Delivery

4.01 What happens after my order is placed?

We will review your order and issue the PO confirmation within one business day. Then the order will be processed as confirmed and you will receive timely updates. After the compliance test is completed, you will receive the report. When the order is received, you will get proof of the delivery.

4.02 What is the PO confirmation?

The PO confirmation is a binding contract for the order and order processing. It specifies the terms and conditions that include the item specifications, price and fees, label and marks, and the schedule of payment, production, testing, inspection, and delivery.

5 Price and Fees

5.01 Can I have a full list of my costs for a custom order?

The regular costs involved are the item price, setup charge, compliance testing fee, and delivery cost. For your convenience, we can offer an all-inclusive quote with all regular costs covered.

5.02 What is the 'ballpark' price of a typical plush item?

Subject to the design, craftsmanship, and season, a teddy bear at 5" tall could be around \$1.89 each, FOB Shanghai, 10,000 pieces ordered.

5.03 How much is the setup fee?

About \$199.

5.04 How much does the safety compliance test cost?

About \$199.

Customizable Promo Puppies

FAQs (Frequently Asked Questions)

5 Price and Fees (continued)

5.05 How much is the freight or delivery cost?

It depends on the item size, season, shipping method, and the destination. The ocean freight for 10,000 pieces of teddy bears at 6" tall delivered to Los Angeles, CA, for example, is about \$1,900 as of July 31st, 2022. The air freight is hard to predict. The freight cost shall be given in the free quote. In addition to the freight, the delivery cost also includes the US customs clearance service and duty, but the amount is insignificant as of July 31, 2022.

5.06 Can you explain the price displayed in this catalog?

Yes! The price displayed with each item is a list price, code R/C for ASI/SAGE distributors, FOB Shanghai, for the item's basic spec without a logo, assuming 10,000 pieces are ordered. Your exact price will be given in the free quote when the specification is certain.

5.07 What is your no hidden cost policy?

All regular costs are clearly specified in our quote and PO confirmation. No cost is hidden. So to start with, you can count on your profit as predicted.

5.08 What is your lowest price guarantee policy?

We pride ourselves on being the industry price leader. If our competitor offers a similar item for less, simply show us the quote before you place the order. We will match the price and also give a 5% bonus discount.

6 US Laws and Regulations Invoiced

6.01 What are the major laws involved with custom plush?

Safety laws (CPSIA 2008, ASTM F963, CA Prop 65) and Copyright laws.

6.02 What is your policy in regards to compliance with the law?

Best Plush Inc. strictly follows the requirements of all applicable laws, along with social responsibility.

6.03 How do you assure compliance of the CPSIA, ASTM F963, and CA Prop 65?

Every order fulfilled by Best Plush Inc. will be tested by a qualified independent lab for compliance with safety requirements, and the test report will be delivered together with the order.

6.04 What is the test lab's accreditation?

The test labs are independent. They are accredited by US CPSC.

6.05 Is there indication on the custom plush for the compliance with the laws?

Yes. A legal statement is sewn to our plushies for the conformity to applicable laws and rules, together with trackable batch information.

7 Copyright of a Plushie

7.01 Who owns the design of a custom plush?

Unless expressed otherwise in our quote and PO confirmation, Best Plush Inc. reserves the copyright of the physical prototype and other samples created for a quote or order, except for duplicated items without any modification, or a licensed item that is stated as such to start with.

7.02 Can I ask you to create a plush based on a design not from Best Plush Inc.?

Yes! It is normal that clients love a design found online or from other sources, but would like to have a similar plush for promo or resale. If that is the case, you should advise us clearly so we can modify the design properly to avoid copyright infringement (the modification is free). As a general policy, we do not duplicate a plush without receiving a proper authorization; we are against copyright theft.
